DUCK BUTTER® Pipe joint Lubricant

Date: August 2017

Water soluble pipe lubricant for joining pipe and fittings with rubber, synthetic rubber, or plastic gaskets. Soft paste spreads easily and thinly to give superior lubrication. Provides optimum lubricity for your pipe material ensuring safe and efficient assembly whether applied by hand, swab, or brush. Use on PW, DWV and sewer systems. Clean, odorless, non-staining; adheres to wet and dry surfaces preventing needless over use of lubricant. Remains in a soft, non-liquid consistency from 10°F to 120°F. Does not support bacterial growth, is non-toxic, and harmless to people and the environment. Does not contain petroleum hydrocarbon greases or silicones and will not swell gaskets. Will not deteriorate cast iron pipe. NSF Standard 61 listed for potable water, sewer and DWV. Indefinite shelf life when kept uncontaminated and sealed in original container. Will not leave residue after assembly and flushing.

APPROVALS & LISTINGS

SPECIFIC USES

Duck Butter lubricates pipe and pipe gaskets for safe and efficient assembly of all types of pipelines.

SPECIFIC APPLICATIONS*

Duck Butter can be used on rubber, synthetic rubber or plastic gaskets on potable water, drain, waste or vent lines and sewer systems.

*For special applications which may not be covered on this or other Oatey literature, please contact Oatey Technical Services Department by phone 1-800-321-9532, or fax 1-800-321-9535, or visit our technical database web-site at www.Oatey.com.
